

# County Estimates

County estimates are an integral part of agriculture statistics. These estimates provide data to compare acres, production, and yield in different counties within the state of Washington. Crop county estimates play a major role in Federal Farm Program payments and crop insurance settlements, thus directly affecting many farmers and ranchers. A cooperative agreement between the Washington State Department of Agriculture and the Washington Agricultural Statistics Service, USDA, provides funding in support of some of the county estimates contained in this publication.

Whitman was the number one county in **barley** with 39.4% of the State's total production; **spring wheat**, 25.7%; **all wheat**, 24.9%; **winter wheat**, 24.7%; and hogs and pigs, 29.6%. Whitman was also the number one wheat and barley producing county in the Nation.

Spokane County was the State's largest producer of **oats** in 2000, with 16.8% of the total, as well as **Kentucky**

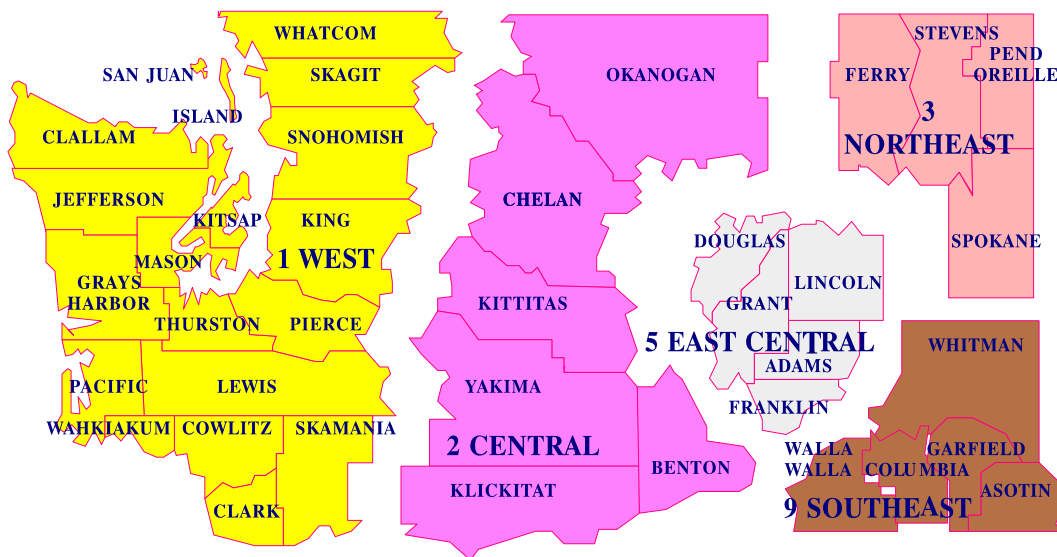

**bluegrass seed**, 20.8%.

Grant County was the top producer of **dry edible beans**, with 58.4% of the total; **sweet corn for processing** with 36.6%, **storage onions** at 35.3%; **corn for grain**, 34.6%; **alfalfa hay**, 31.9%, **green peas for processing** at 36.1%, and **potatoes**, 24.4%.

Whatcom County was the top producer in the State for **red raspberries**, with 71.7%, and 38.7% of the **blueberries**. Whatcom also had the largest inventory of **milk cows** with 25.6%, and produced the most **corn for silage** at 25.9%.

Yakima County was the State's number one producer of **spearmint**, at 76.5% of Washington's crop; and **peppermint**, 20.3%. Yakima also had the highest inventories of **sheep**, 25.9%; **all cattle and calves**, 17.8%; and **beef cows**, 10.3%.
